Since 2005, Adventure Cycling Association has been the lead organization working with state DOTs and AASHTO to develop the U.S. Bicycle Route System. We provide free technical assistance, coordination, and resources to assist stakeholder groups in their designation efforts.

“KDOT’s ongoing partnership with Adventure Cycling is essential to our progress.”

–Matt Messina, Comprehensive Transportation Planning Manager, Kansas Department of Transportation

THE U.S. BICYCLE ROUTE SYSTEM is a developing national network of bicycle routes connecting urban and rural communities via signed roads and trails.

Created with public input, U.S. Bicycle Routes direct bicyclists to a preferred route through a city, county, or state — creating opportunities for people everywhere to bicycle for travel, transportation, and recreation.

THE U.S. BICYCLE ROUTE SYSTEM is a developing national network of bicycle routes connecting urban and rural communities via signed roads and trails.

Created with public input, U.S. Bicycle Routes direct bicyclists to a preferred route through a city, county, or state — creating opportunities for people everywhere to bicycle for travel, transportation, and recreation.
As of October 2019, 27 states and Washington, DC have established over 14,000 miles of U.S. Bicycle Routes.

State DOTs lead the process of curating U.S. Bicycle Routes, thus increasing safety for people traveling by bike while reducing risk for the agency.

**HOW TO DESIGNATE A U.S. BICYCLE ROUTE:**
1. **DEVELOP** a draft route with stakeholder input.
2. **SECURE SUPPORT** from all jurisdictions.
3. **SUBMIT** application to AASHTO.
